

# CURRENT ONCOLOGY

A Canadian Cancer Research Journal

## ABOUT CURRENT ONCOLOGY

*Current Oncology* is a peer-reviewed, Canadian based and internationally respected journal. *Current Oncology* represents a multidisciplinary medium encompassing health care workers in the field of cancer therapy in Canada to report upon and to review progress in the management of this disease.

## DISCLOSURE

Multimed Inc. assumes no responsibility for the views expressed herein by contributors to *Current Oncology*. The views expressed in the journal do not necessarily reflect the view of Multimed Inc. or of the editors.

## MANUSCRIPT SUBMISSION

*Current Oncology* will publish original articles, review articles, editorials, clinical guidelines, consensus statements, short communications, case reports, commentaries, meeting reports and letters to the editor. Visit our "Information for Authors" page (<http://www.current-oncology.com/index.php/oncology/about/submissions>) for instructions for authors and submission guidelines. Submissions must comply with our guidelines and policies. Articles are to be submitted on *Current Oncology's* online submission and peer-review system at [www.current-oncology.com](http://www.current-oncology.com). The system sees your paper through submission, peer review, editing and publication. The senior author is responsible for ensuring that the article has been reviewed and approved by other authors and that permission has been obtained for republication of data, figures, or manuscripts if they have been published elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher, Multimed Inc. As an author, you are granted specific rights for a large number of author uses, which are granted and permitted without the need to obtain specific permission from the copyright holder, Multimed Inc. if and when the article is accepted for publication.

Multimed Inc. sends all articles published in *Current Oncology* immediately upon online publication, without further intervention from the author, to PubMed Central (PMC), the National Library of Medicine's full text article archive. Manuscripts deposited to PMC are freely available to the public, via the internet, upon publication in the journal.

## PERMISSION FOR OTHER USE/COPYRIGHT

©2020 Multimed Inc. All rights reserved. Reproduction, in whole or part, without written permission from the publisher is prohibited. The copyright owner's consent does not extend to copying for general distribution, for promotion, for creating new works, or for resale in print or online format. Specific written permission must be obtained from the publisher for such copying. Contact our Permissions, Reprints and Licensing department.
